EXPERIENCE FINLANDIA EXPERIMENTAL EXHIBITION

- The exhibition script tells a story of Finland, design, Finlandia Hall, creativity, and the future through the lens of Aalto's architecture. It celebrates the people who created Finlandia Hall and those who bring this iconic event venue to life.
- Themes: Architecture, Design, Forest, Finland
- Total area ca 1300 m², max 300 pax
- Multiple opportunities for the event organisers: private cocktail receptions, dinners, workshops, guided tours

Parantalan muitten huoneitten rakenteesta on mainittava: suuremmat salit kuten ruokasali ja työsalit ovat siivessä B, suunnattuina suoraan etelään.

Alvar Aalto 1933

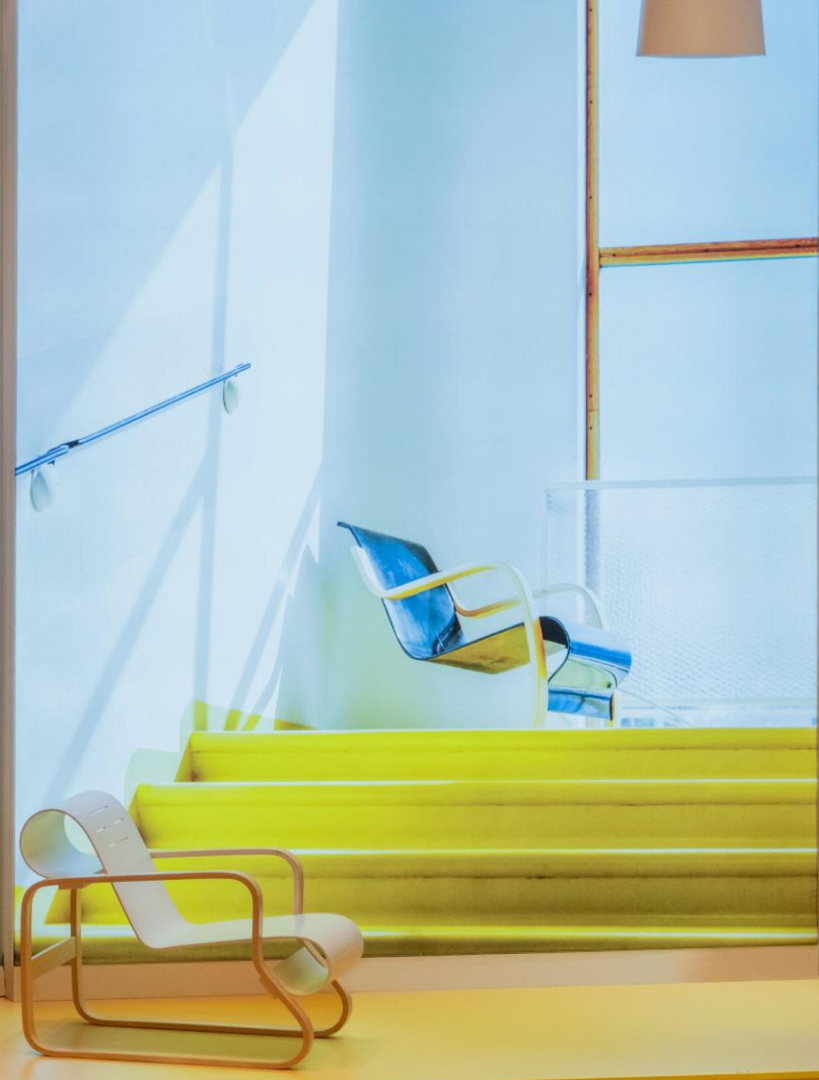

On the structure of the other rooms in the sanatorium: larger halls such as the dining room and the work room, located in the B wing, face directly south.

Alvar Aalto 1933

PARANTAVA VALO HEALING LIGHT

Päivän suunnittelun lähtökohdat olivat auringonvalon maksimointi ja parantamisen, jota sanatorio edisti hoitojen ja parantolaitoksen rakentamisen avulla. Parantolaitoksen lämpöä säätöhuone, vesi- ja sähkökeskukset, lääkintä- ja sairaalakeskus sijaitsivat luonnon valon lämpöä hyödyntäen. Keskeisessä osassa luonnon valon lämpöä hyödyntäen suunniteltiin lämpöä säätöhuone, vesi- ja sähkökeskukset. Keskeisessä osassa luonnon valon lämpöä hyödyntäen suunniteltiin lämpöä säätöhuone, vesi- ja sähkökeskukset. Keskeisessä osassa luonnon valon lämpöä hyödyntäen suunniteltiin lämpöä säätöhuone, vesi- ja sähkökeskukset.

The design of Parantala Sanatorium was based on maximizing sunlight and heating on the patient sanatorium, which was called both Parantala and with the help of a parantala of a patient room. The placement of windows, lighting, water scheme and thermal design of the room took into account the needs and properties of a sanatorium ward. For example, the north-facing in the rooms were designed to receive maximum solar radiation. The Finnish made for the sanatorium, the need for a space for patients to breathe with sitting. It was also important to make the furniture and furniture easy to clean. Even the door handles of the patient rooms were designed so that they would not catch the dust of a passing doctor or nurse.

ALVARO ALTO
ALVARO'S FOREST

Alto's forest is a masterpiece of modernist architecture, designed in 1951. It is a prime example of his 'organic architecture' style, which seeks to harmonize buildings with their natural surroundings. The forest is a prime example of his 'organic architecture' style, which seeks to harmonize buildings with their natural surroundings.

Kaikkessa on luonnon
Aalto on luonnon
on pohjimmaisena
tuntuma metsän
maailmaan,
metsänviisius...

Göran Schildt 1982

There is
an underlying
sense of the forest
world in all of Aalto's
work, the wisdom
of the forest...

Göran Schildt 1982
